April Read Like Hell-A-Thon—Special Spring Edition

Levels and prompts can be read in any order you wish. Think of them more as groups instead of stepping stones to the next level.

The only exception is the BONUS level in which you need to finish the other two levels as well to achieve.

Each character has more prompt choices than needed to give you options. Read all the prompts for extra points (the points don't matter, except for bragging power).

If you achieve all levels including the bonus level (8 books total), you earn the title of "Persephone"
